

Fig. 6 is a schematic diagram of a garment, possibly a shirt or tank top, viewed from the front. The garment has a collar and a central panel. A sensor array, labeled 60, is positioned on the left side of the garment, with a dashed line indicating its connection to a control unit, labeled 64. The central panel is labeled 86, and the area below it is labeled 88. A dashed line, labeled 106, is shown across the central panel. The label 90 is located in the upper right area of the garment.
